Wizard™ Online – 40 Subscription Bundle .....	800113071	\$1099.00

#### A Brief Explanation on Wizard™ Subscription Bundle Purchases

- **Your school purchases a bundle of subscriptions.** As each teacher registers for a subject, one subscription is deducted from your total.
  - Example:
    1. New York City High School purchased 10 subscriptions. Mr. Bookman registers for Chemistry and Physics. This deducts **2** subscriptions. Ms. Davis registers for Algebra I. This deducts **1** subscription. New York City High School has used **3 of 10** subscriptions.
    2. Each subscription is *personal* to be used by a specific teacher. Subscriptions are **not** “Multi-User Licenses.”
- **Subscriptions will expire one year (12 months) from date of purchase.** Unused subscriptions can be recovered for a small fee.\*
- **The school is responsible for the allocation of subscriptions.** Eduware cannot be held responsible for teachers registering for subscriptions without permission. Schools will be asked to designate an administrator(s) who will be responsible for monitoring subscription use.
  - Administrators will be capable of viewing the teachers who have created accounts and the history of usage and expiration dates.
  - There is a **30 day grace period** where a subscription may be transferred from one teacher to another. Subscriptions are not otherwise transferrable unless given permission by Eduware
  - Each login is unique to the particular teacher. It is against the Terms of Service for more than one teacher to use one account.
- Question Catalogues are not included in the price of subscriptions. Please contact us for FAMIS numbers to order catalogues
- These terms and prices are subject to change without notice.

\* **Unused subscriptions** can be recovered in two ways:

- a) Payment of a \$5.00 recovery fee per subscription, or
- b) Eduware will waive the recovery fee for every subscription on a one-to-one basis with a subsequent purchase of new subscriptions. I.e.; if your school has 6 unused subscriptions, they can recover all of them by purchasing a minimum of 6 new subscriptions.
